

PBMs: Improving Medication Adherence for Better Health

THE CHALLENGE

ONLY **25-30%**
of prescriptions are taken as prescribed

PART OF THE SOLUTION: PBM PROGRAMS & TOOLS

ONE-ON-ONE COUNSELING

Can reduce the risk of hospital readmissions by up to

50%

DIGITAL TOOLS

Can increase adherence for patients with chronic conditions by as much as

10%

REFILL REMINDERS

Can increase the likelihood that a patient picks up prescriptions by

40%

COST SAVINGS

PBMs help save patients and plans

40-50%
on prescription drugs
