

PROTECT PHARMACY BENEFITS FOR FLORIDA BUSINESSES AND SENIORS

Florida employers work hard to provide affordable health care coverage, including for millions of Florida consumers. With inflation high, keeping health costs low has never been more important.

Restricting pharmacy benefits will cost millions, limit patient access to medicines, and undermine small businesses' ability to offer affordable pharmacy benefits in Florida.

HOW PHARMACY BENEFITS HELP FLORIDIANS:

Lower prescription drug costs **by over \$1,000 per person per year**

Control drug spending for employers who provide benefits to **8.5 million Floridians**, even as costs rise

Deliver nearly \$43 billion in savings to Florida small businesses and patients over 10 years

Lower patient out of pocket costs by connecting patients with affordable drugs that improve their health

Florida Lawmakers: Protect the savings that pharmacy benefits deliver for Florida.
