

# DON'T RAISE Rx DRUG COSTS FOR CA UNIONS & EMPLOYERS

California unions and employers work hard to provide affordable health care for 18 million Californians.

Restricting pharmacy benefits will cost Californians over \$100 billion, put patients' health at risk and undermine the ability of California families to pay for prescription drugs.

## HOW PHARMACY BENEFITS HELP CALIFORNIANS

Lower prescription drug costs by over \$1,000 per person per year.

Deliver nearly \$110 billion in lower drug costs for Californians over 10 years.

Manage drug spending for employers and unions who provide benefits to more than 18 million Californians.

83% of union households are highly concerned about policies that will increase the amount union households pay for health care and Rx drugs and weaken their current pharmacy benefits.

**Protect pharmacy benefits for working families in California.**
