

DON'T RAISE Rx DRUG COSTS FOR KENTUCKY BUSINESSES

The Kentucky Legislature is considering bills that will weaken pharmacy benefits for Kentucky families and drive up costs for employers by millions of dollars each year.

Kentucky lawmakers must protect small businesses, families and taxpayers from big drug companies' high and rising prices for prescription drugs.

WHAT WOULD BE THE EFFECT OF RESTRICTING PHARMACY BENEFITS?

Risk raising prescription drug costs by over \$1,000 per person per year by undermining affordable pharmacy benefits.

Raise prescription drug spending by millions of dollars in Kentucky in the first year alone.

Jeopardize nearly \$15 billion in savings that pharmacy benefit managers (PBMs) will deliver to Kentucky businesses over 10 years.

Restrict the flexibility and choice that 93% of employers say they want in offering prescription drug benefits to employees.

Protect pharmacy benefits for businesses and families in Kentucky.
